

MAMIE CONNER BRADFORD, first white child born in Randall County, is here for dedication of this historical marker at her family's former dugout site at 1511 9th Ave. Ceremonies

will be held at 4:30 p.m. Sunday. The dugout, built by the late L.G. Conners, was the first home in what was then Canyon City.

History Marker Rites Scheduled Sunday

BY WAYNE BOARD

Mrs. Mamie Bradford, the first white child born in Randall County, will be here Sunday for three historical marker dedications. The former Mamie Conner now resides in California.

The dedicatory ceremonies, to begin at 4 p.m., are a project sponsored by the Randall County Historical Survey Committee. Wes Izzard, editor of the Amarillo Daily News, will begin the ceremonies with the dedication of a marker at the site of the town wagon yard which was headquarters for ranchers in early days.

Ranchers slept in bedrolls in

their wagons or in a room above the office and cooked over a campfire in the yard.

The wagon yard, which was in business from about 1890 to 1921, was owned by W. C. Kenyon. John W. Kenyon, Amarillo, son of the late W. C. Kenyon, will be present at the ceremonies.

The wagon yard is now the site of the LaGrone Funeral Chapel at 1702 Fifth Avenue. Jerry LaGrone paid \$70 toward purchase of the marker and the county donated an additional \$60.

Randall County Sheriff L. S. (Slim) Johnston will then dedicate a marker at the site of the

Conner dugout, first home in Canyon. It was located at what is now 1511 Ninth Avenue on property owned by Jack Taylor.

Taylor paid \$70 of the cost of the \$130 marker and the county paid the remainder.

The dugout was built on a survey located Christmas Day in 1887 by L. G. Conner. It served as the first post office in Canyon and was the birthplace of Mrs. Bradford.

An election to organize the county in 1889 was held at the

Board Continues To

Delay Decision

Action Is Tabled Until Next Month

Canyon school board, for the second time, Tuesday night tabled a decision on the Canyon Junior High School Building because a member of the board was absent.

Last week the decision was tabled because Board Member Walter Graham was not present. This week Jerry LaGrone was called out of town due to illness in his family.

Now the board is slated to take up the matter at its regular meeting June 20.

The board is pondering the questions of whether to build a new building and raze the old one, remodel the present junior high school building or to repair the present building and take no further action this year.

BB Tryouts For Girls Set Friday

Tryouts for a girl's softball league, sponsored by the Canyon Kiwanis Club, will be held Friday at 5 p.m. on the softball diamond just west of Rex Reeves Elementary School.

All girls 12-14 years old who desire to play summer softball are urged to be present for the meeting. Players who are unable to attend should contact Burwell Southern, president of the league.

Four girl's teams will be organized at the meeting. Coaches for the teams will be George Blackwell, Ken Olson, Hal Brown and Jim Boyce. Benny Cooper will serve as chairman for arranging umpires and equipment.

Bill Davis made the motion to table action until a full board can be present.

"It will give us a little more time to get some carpenters and look into the old building and see what we can do to make repairs," said Graham. "That's what we'll have to do anyway if a bond issue doesn't carry."

Estimated cost of building a new building is \$1,200,000 and estimated cost of remodeling is \$750,000. No estimate on re-

County Questions, To Build Or Rent?

Commissioners court Monday pondered whether to build a new annex north of the present courthouse or to rent the old Cooper's Market building across the street.

Members of the court visited the market building but no decision was reached.

The court has contemplated renting the building which has 8,800 square feet of floor space. The building belongs to Clay Cooper.

Commissioners also are studying plans for a new annex to the north of the present courthouse. The courthouse already has a south annex which houses the sheriff's office, jail, jury dormitory, commissioners court room, justice of the peace and an office for the highway patrol.

Architect Clayton Shiver of the firm of Shiver & Megeert of Amarillo says the present main courthouse is overcrowded and over-loaded. He described the main building as little more than a firetrap.

Commissioners court had contemplated remodeling the

Stores Close On Tuesday

A majority of Canyon businesses will be closed Tuesday, May 30, in observance of Memorial Day.

The holiday observance has been requested by the Canyon Chamber of Commerce retail merchants committee.

Both City Hall and the Randall County courthouse offices will be closed Tuesday, as will the post office here.

The two Canyon banks will remain open on Memorial Day.

Try For Court Is Abandoned

A plan to create a new court for Randall County alone has been dropped, according to reports from Austin.

Representative Walter Knapp of Amarillo said his judicial redistricting bill was hopelessly blocked by Senate forces.

Knapp's HB 1043 would have realigned all the state's district courts according to population. Included in the measure, which was sought by Gov. John Connally, was provision that would have established a new 203rd District Court in Randall County.

The bill has been lying dormant in the House for several weeks while its sponsor and Speaker Ben Barnes attempted to clear the way for it in the Senate.

The bill was voted out of the House Committee on Judicial Districts of which Knapp is chairman. However, opposition in the senate is so strong that Barnes and Knapp have said no further effort will be made to bring the bill up for a vote in the House.

Knapp was quoted by an Austin newspaper columnist as having said he had 120 votes for the bill in the 150-member house but could see no reason to ask for a House vote if the

Sites Get Regent OK

Location sites for new buildings on the West Texas State University campus were approved Friday at a Board of Regents, Texas State Senior Colleges, meeting in Austin.

A physical activities building will be located at the rear of the East Dining Hall; additional seating spaces will be constructed north of the East Dining Hall; and dormitories for men and women will be built east of Hudspeith and Shirley Halls.

The building sites were discussed at a February meeting of the Regents.

Also given approval Friday were faculty members for the summer and fall sessions at WTSU.

Teen Town Discussions Underway

Formation of a Canyon "Teen Town" has been announced by Sherwood Blasdel, planning chairman for the joint project which is being co-sponsored by the Presbyterian and Christian churches of Canyon.

The "Teen Town" will have a varied social program for high school students and their guests during the summer months. Included among activities will be all types of games, ping pong, dances to records and live bands and many others.

Center of activity for the summer youth project will be the Christian-Presbyterian Student Center at 2312 Fourth Avenue.

Plans are being discussed between an adult supervisory committee and a panel of high school students who will serve as the Student Council for the project.

"We hope to be open in early June," says Blasdel explaining

City Pool Opening Is Set Monday

Monday will be splash down for Canyon youngsters when the City Pool opens for the summer.

Pool hours will be from 1 until 7 p.m. daily and a water safety instruction program will be held each morning.

Reservations for private parties may be made by contacting Wayne Phemister, newly named Parks and Recreation superintendent.

The pool, located on the south end of Canyon, has been repainted and cleaned for use this summer.

Two Diplomas Given Olsons

Two diplomas!

One granted by West Texas State University and the other from Canyon High School are going this week to the family of Donald M. Olson of 2606 Ninth Avenue in Canyon.

Receiving the diplomas are the mother, Martha Olson, and son, Mark.

Mrs. Olson received her diploma Sunday evening in commencement ceremonies at the university. She received the master's degree in education.

Son, Mark, will receive his diploma Friday evening in ceremonies at 8:15 o'clock at Canyon High School. Mark will actually be a third generation graduate from Canyon High School.

His mother received her high school diploma from the school in 1942 and his grandmother, Mrs. Mark Foster of Canyon, was a member of the graduating class at Canyon High School in 1924. Mrs. Foster was among 25 students who were required to take state exams for gradu-

ation that year at the present Junior High School Building.

Mrs. Olson went to work for the telephone company after high school graduation. She worked there for about five years. Then in 1947, she went

Building Approved

Old grads here Sunday approved a plan to build an alumni building at West Texas State University.

The approval came from the near 100 persons attending a reunion for classes 1911-17 held on the WT campus over the week end. Vaughn Vandergriff, executive director of West Texas Ex-Students, Inc., said the proposed building will cost about \$60,000.

Leaders on the project are Mrs. Clyde Warwick and Mrs. (See BUILDING, Page 7)

EARL SPARKS of Plainview, a 1915 graduate of West Texas, shows some college pictures to Mrs. May McClure Caldwell, Tampa, Fla., who was graduated in 1913. Almost 100 old grads in classes 1911-17 visited the campus last week end.

Grads Reminisce WT's Early Days

Mrs. May McClure Caldwell of Tampa, Fla., was among the old grads at the reunion here over the week end of West Texas State classes 1911-17.

Mrs. Caldwell, cousin of Boone McClure, who is in charge of Panhandle-Plains Museum, moved to the Canyon area with her parents at the turn of the century. They came here from Hill County.

Her father, I. W. McClure, was a rancher at Ralph. Mrs. Caldwell went through the seventh grade at Ralph School.

The family then moved to Canyon to be near a high school. "It was a long way from Canyon to Ralph (Ralph Switch) in a buggy in those days," Mrs. Caldwell remembered Saturday. "It was 12 miles."

Mrs. Caldwell was graduated from Canyon High School in 1911. She entered college here and was graduated in 1913.

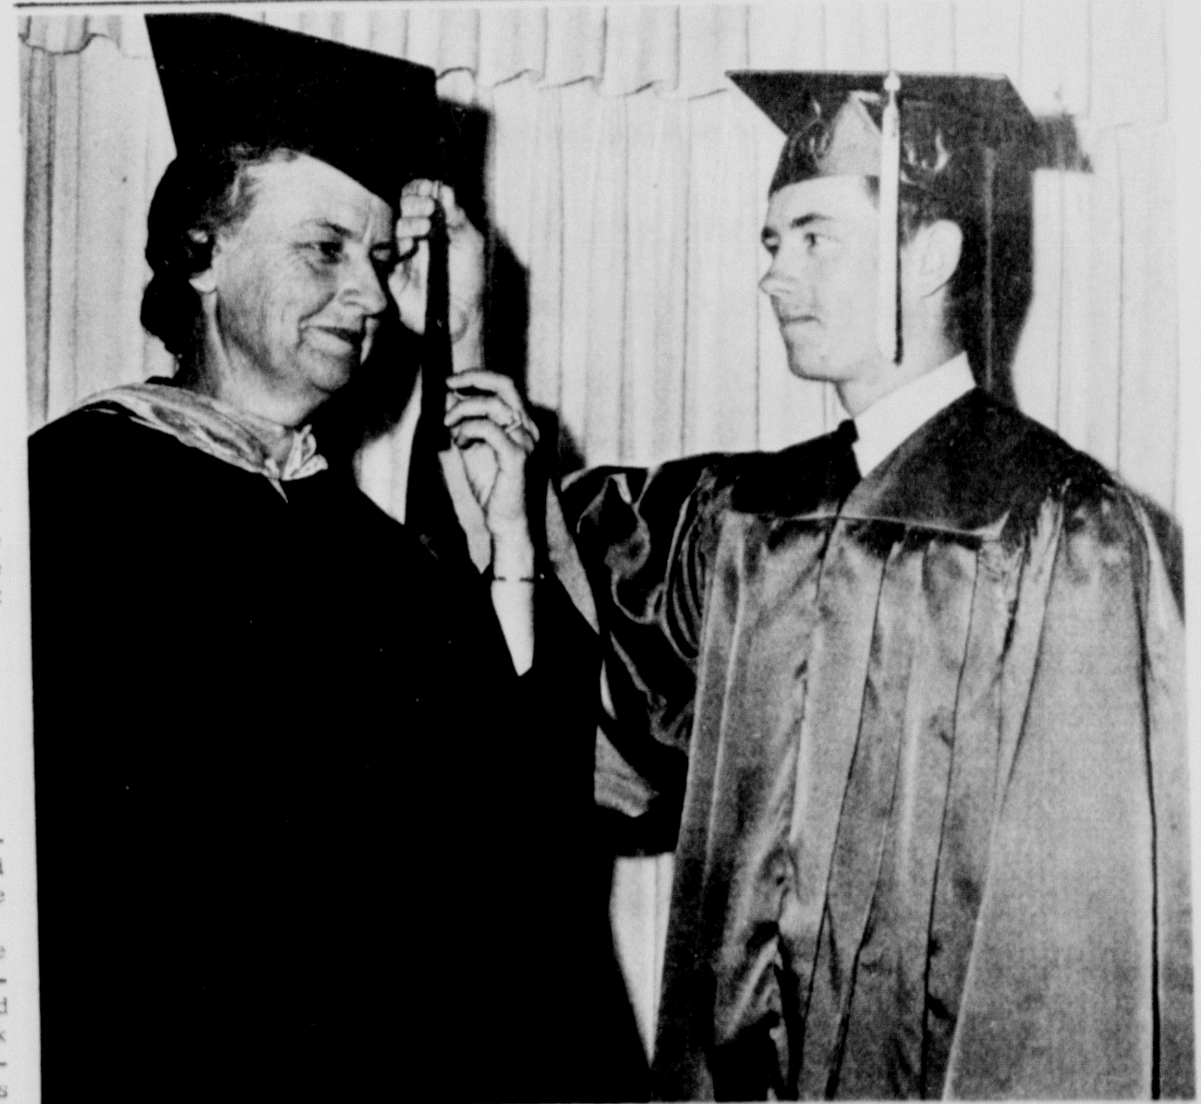

There were five boys and five girls in the McClure family. A little girl died in 1901 but the remainder are still living.

"I taught one term at Grandview after graduating," said Mrs. Caldwell. "Then I got married and went to housekeeping."

Her husband was a railroad man. Mr. Caldwell died two years ago. Mrs. Caldwell has three children.

They are Mrs. Wanda Allen, Morgantown, W. Va., Mrs. Mary Corker, Richmond, Va., and Clifton Mitchell Caldwell of

GRADUATION CAPS and gowns are worn by Mrs. Donald M. Olson and her son, Mark, as both are among the 1967 graduating classes this year. Mark is slated to receive his high school diploma from Canyon High School in ceremonies Friday night at 8:15 o'clock in the CHS auditorium.

FROM THE

CANYON RIM

By Troy Martin

I have been surprised to see how most folks adhere to daylight saving time.

There are a few dissenters, however.

Dr. W. J. Wooten runs his office by the clock. "I get off in the middle of the afternoon and could play a lot of golf before dark," Dr. Wooten said recently. "But I have to get up so early to get to work on time now that I'm too tired to play golf when quitting time rolls around."

Dr. James P. Cornette, president of West Texas State, arrived late at a banquet in Amarillo and quickly explained away his tardiness.

"You started on daylight saving time," he declared. "I arrived here on God's time."

Representative of a major advertising service last week told me that surveys have shown that in the evenings use of water fluctuates sharply.

The peaks of consumption--shown on water department graphs--correspond with television commercials, he said. Viewers tend to go to the bathroom or to get a drink of water while video ads are on.

George Dolan at The Fort Worth Star-Telegram tells this one.

A woman, whose husband is project supervisor in systems and procedures for Bell Helicopter, entered the hospital for childbirth. "Don't be surprised if there's more than one," the doctor told her.

The husband lodged a complaint.

"Here you are," he told the doctor. "You can't guarantee when the baby will be born (it was two weeks ahead of schedule) and neither can you tell how many there will be. What if we built Helicopters that way?"

The doctor didn't reply.

Twins were born.

The doctor took the husband to see the babies.

Then he replied:

"By the way, we were ahead of schedule by two weeks and we got two for the price of one. Why don't you build helicopters like that?"

One night in June of last year just after the President had ordered the bombing of Haphong oil storage facilities he told his daughter Luci:

"Your daddy may go down in history as having started World War III. You may not wake up tomorrow."

What if Barry Goldwater had said something like this in 1964?

Probably the two toughest jobs in the court house are those of county and district clerks.

The jobs are particularly tough because they do not allow for mistakes. Everything a clerk does has to be right. If everything a clerk does is not right irreparable damage can be done.

County and district clerks file all the legal papers for the people within the county. You don't buy a piece of real estate without checking with the clerks to see if the property is clear of liens, debts and lawsuits. The two clerks' jobs are mighty exacting.

Pair Charged In Car Theft

Two men were arraigned here last week on charges of burglary of an auto, a felony offense.

Roger Paul Wood, 18, of Happy and Kenneth Ner Malone, 19, of Amarillo, were arraigned on the charge by Randall County Justice of the Peace W. A. (Bill) Wilson.

Both waived examining trials. Bond for each was set at \$1,000.

Top Students

OUTSTANDING STUDENTS named by Canyon Junior High School at an awards assembly last Wednesday were, left to right, Susan Lindemann, ninth; Jamie Martin, eighth; and Chuck Wright, seventh. The three were recognized for scholastic records, leadership, and citizenship at the school.

Letter To The Editor

1211 Hillcrest Drive
Canyon, Texas
May 18, 1967

Mr. Troy Martin, Publisher
The Canyon News
412 15th Street
Canyon, Texas

Dear Mr. Martin:

I've never written a letter to an editor before. Usually I'm a quiet, mild mannered, even shy person who minds her own business. But the letter concerning school affairs published in last week's paper riled me. My husband and I are teachers - one of us at that place in the east end of town. Our home didn't cost anywhere near \$50,000 (though with the long term loan we have in order to make our payments realistic, we may end up paying nearly that much for it). We don't have two Cadillacs - not even one; we're more in the Ford or Volkswagen range. More than that, neither of us became a teacher because of the financial returns; there are other rewards, more intangible but certainly also more valuable. It's an old idea, trite too - but there are teachers who have a sense of dedication to their work.

This really isn't what I wanted to say, though. The Canyon Independent School District is losing at the end of this semester a man who has devoted almost twenty years of his life to teaching. His reason? His responsibilities - three sons, all of them fine boys - just outgrew his income, he says. So he's leaving the schoolroom and going into the business world. Somebody will take his

place, I guess; none of us are indispensable. But the Canyon schools will be poorer for his loss. In what other field would a man with a master's degree and twenty years of faithful duty have to change jobs completely - so that he can provide his family with the necessities of life and give his children an education?

As to the junior high school building, Canyon needs a new one. Rooms are designed for about twenty students; some classes have as many as thirty-two students crowded in. Furniture is outmoded, and ventilation is very poor. Imagine, if you can, thirty youngsters crowded in a stuffy, water and time-stained room, sitting in rickety, noisy chairs. That's not the best teaching or learning situation. In addition, wiring, plumbing, and sound conditioning are inadequate. The small size of the lunch room (part of the day a gymnasium),

requires that two lunch periods be set up, an arrangement that necessitates splitting one class period - half of a math class, for example, before lunch and the other half after.

Surely a new building will add to our tax load. But, Mr. Smith should be reminded, teachers pay taxes too. And we teachers are not necessarily the prolific ones, either. On our block alone, there are six houses where teachers live; three of these families have three children each, two have two, and one has one. Beside the point? Maybe. But our belts are being pulled in, too.

Sincerely,
Sue Park
(Mrs. D. R. Park)

Mrs. J. H. Green of Fresno, California visited several days last week with her mother, Mrs. W. T. Haley, and a sister, Mrs. C. L. Wilson.

City Boys In Marathon

Two Canyon boys who enjoy a challenge achieved the feat of running a marathon Sunday afternoon at the Canyon High School track.

Neal Knighton and Frank Belcher, both members of the local Meteor Track Club, ran alternately around the quarter mile oval until they had covered 26 miles, 385 yards, the official distance of the marathon. The distance is just 55 yards less than 105 laps.

With Knighton running the odd numbered laps and Belcher doing the even numbered ones, the two alternated through the first 26 miles before running side by side for the last 385 yards, so that each boy's distance came to 13 miles, 385 yards.

The youths posted a time of

two hours, 49 minutes, and 19.0 seconds.

Asked if they had any second thoughts during the run, both boys said they never considered quitting. "It did get pretty gruesome near the end, though," Belcher admitted. Knighton said that he "felt pretty bad about halfway through, but it went away."

What motivates a pair of 14-year-olds to run a marathon? "It's a great challenge," stated Belcher. Knighton explained, "I just want to be a better athlete, and I thought this would improve my condition."

The marathon is an Olympic event commemorating the distance run by a Greek messenger in 490 B. C. with the news of a Greek victory over the Persians at the battle of Marathon. The man ran from the scene of the battle to the market place in Athens, where he fell dead after gasping out the news. The distance covered was later found to be exactly 26 miles, 385 yards -- hence the peculiar figure.

Canyon Man Hurt At Lake

Richmond Graham, 22, of 414 Foster Lane, is in satisfactory condition at Neblett Memorial Hospital here following a tractor accident last week at Buffalo Lake Refuge.

He is suffering from a broken pelvis and collarbone and cuts and bruises.

Graham was run down by his tractor in a caliche pit just off the entrance to Buffalo Lake last Thursday about 2:30 p.m.

Investigating Randall County deputies said Graham had apparently climbed from the tractor and was working with a hydraulic leak when he accidentally put the machine into a forward gear.

The tractor ran up his left leg and off his right shoulder. He is a part-time employee at the Lake refuge.

SUMMER WORKSHOPS

Workshops are among the most effective means of encouraging professional growth and development of teachers in service. They do not replace a person's academic study in a college or university. It is imperative that teachers be well qualified with the basic knowledge and skills that are attained only by formal education. In addition, teachers must specialize in their chosen field of work.

The strength of a well planned workshop lies in the fact that it can be tailored to meet the special needs of a particular group of teachers.

Four years ago a survey was made of the Canyon Elementary Faculty to determine what could be done to help them strengthen classroom work in order that more effective teaching could be accomplished. It was discovered that frequently teachers attend meetings or read information that furnishes them with ideas and inspiration to construct teaching devices. These devices could enable them to demonstrate or illustrate important facts to their students or make learning more attractive. The lack of time and materials were the main hindrances to the development of these media. It was decided that a workshop tailored to meet these two requirements - sufficient time and material - would meet the needs of the greatest number of teachers.

An Elementary Curriculum Consultant from the State Department of Education was enlisted to direct the workshop. She displayed samples of teaching media that had been collected from her visits to schools throughout the state of Texas. She explained the purpose of each one and how each was used to enrich classroom teaching.

Meanwhile, the teachers had compiled individual lists of media they planned to construct as well as the materials needed. Adequate supplies and materials were made available. The teachers spent forty-five hours the first two weeks in June making a variety of attractive, interesting, and educationally sound materials to supplement and enrich the basic school program.

At the same time faculty members from both the junior and senior high schools decided that organizing and compiling courses of study would be the activity that would help them most. The Curriculum Supervisor of the Secondary Schools served as consultant and director of their workshop. They spent the same amount of time studying available materials and writing courses for their classes. This study served as an impetus to continue writing and to date curriculum guides have been prepared for most of the courses offered in twelve departmental areas.

During the summer of 1964 a workshop was held for the elementary teachers for the purpose of planning the introduction of "new" mathematics into the school's curriculum. Two junior high teachers served as consultants. A specialist from the American Book Company, whose text was adopted by Canyon, helped in the workshop for several days.

In each of the workshops, the teachers paid a fee to help defray expenses. They were given three hours credit to satisfy a part of the professional growth made of Canyon teachers.

Research conducted by the National Education Association found that in-service education is one of the most effective techniques to bring about professional improvement. It improved faculty teamwork and unity and increased individual competency in teaching-learning new procedures, improving methods and techniques, better understanding of pupils and produced better understanding of school objectives. This plan for in-service training is an integral part of the professional growth program approved for Canyon teachers.

Morals Charge Is Filed Here

Billie Joe Voshalike, 39, of 401 Russel in Pampa, was arraigned Sunday afternoon here on the charge of indecent exposure, a felony offense.

Voshalike was released on \$2,500 bond set by Randall County Justice of the Peace W. A. Wilson.

Recil Johnson and Dan Carter, both Randall County deputies, were called to Palo Duro Canyon State Park about 6:30 p.m. Saturday after six camp fire girls from Amarillo reported a man had indecently exposed himself to them.

The girls, all about 12 years of age, said a man wearing no clothing approached them at the fifth water crossing about 300 yards from their camp site.

The man said his hands were tied behind his back and asked that they untie him. The girls fled to report the incident.

Johnson and Carter found a late-model automobile about 100 yards from the creek on the north side of the side road.

After attempting to find the man and watching the car until about 10:30 p.m., officers abandoned the search.

Voshalike called the Randall County Sheriff's Department Sunday morning from his brother's home in Amarillo.

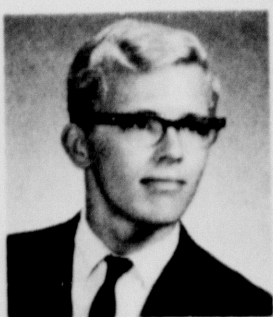

The man said he walked all night in an attempt to reach Amarillo, according to Johnson.

FOUR UNITS from the Canyon Fire Department battled a grass fire last week three miles north of McCormick Road and the Canyon Expressway.

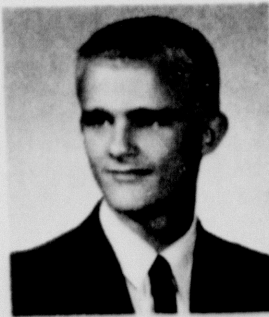

The fire, on soil-bank land owned by a Dumas man, consumed 80 to 100 acres of grass before it was brought under control.

Meteors In Pampa Meet

Canyon's Meteor Track Club turned in a strong showing at the Pampa Jaycees' Junior Champ Track Meet May 13 at the Pampa High School Track. Over 500 area youngsters competed in age groups from nine to 18 years with divisions for boys and girls.

Although no team points were kept, several Canyon individuals put up outstanding performances.

Frank Belcher placed first, second, or third in five individual events and anchored a third place relay to win a trophy for high point honors of the top three age groups in boys' competition. Belcher, 14, competed in his own age group in four events but moved up to the 15-16 year class to take second in the 880 run, and up to the 17-18 year division to cop a second in the 120 yard high hurdles. He scored heavily in the 13-14 year class by taking third in the 220, second in the 400, and first in the mile.

With only 15 minutes rest after winning the mile, Belcher moved up to the 15-16 year level in the 880 because Canyon already had a threat in the 13-14 880 in Frank Mayfield. Belcher finished a determined second, while Mayfield won his race handily by pulling away in the last 220 for a 25-yard triumph over teammate Neal Knighton.

Knighton also had a remarkable day, dashing to victory in the 440 and placing second in the 880 almost immediately after finishing second in the mile.

The Meteor T.C. was represented by boys in the 9-10, 11-12, 13-14, and 15-16 year age groups, while the Meteorettes competed in the 9-10, 11-12, and 13-14 year girls events.

Marilyn Read and Lynette Slack paced the Meteorettes in 13-14 year division as Miss Read leaped to victory in the long jump and Miss Slack captured the 440 dash. Kris Tucker placed in four events.

Nancy Boyce placed in four events in the girls 11-12 bracket and took a pair of seconds in the 50 and 75 yard dashes. Kay Owen won ribbons in three events.

Joe Mike Carter, the only Meteor entry in the 9-10 boys, leaped to a first place in the high jump.

Danny Davis led MTC entries in the 11-12 year boys events, winning the high jump and anchoring the winning 440 relay team. Davis also placed third in the 50, fourth in the 75, and fifth in the 13-14 year 70 yard hurdles. Billy Taylor, Kevin Robins, and Chris Doss joined Davis in Canyon's only relay win of the day. Taylor won the broad jump and placed in two other events.

Huntington Beach, Cal.

"Canyon is wonderful," Mrs. Caldwell declared. "Hasn't there been a change here at the college?" she went on. "There was only one building when I was here."

Mrs. Caldwell was accompanied here by a sister, Miss Wanda McClure, also of Tampa, and a brother, Cecil McClure of Atlanta, Ga. Miss McClure attended WT in 1912 and 1913. She got her degree from the University of Florida.

Cecil remembers that Fifth Avenue, which then was at an angle with the square, had a line of saloons along it.

"It was a pretty tough part of the town," said McClure. "I remember that they once had a shooting at one of those saloons."

Earl Sparks of Plainview was a member of the class of 1915. He taught at the University of South Dakota. Then he started a school of business on his own. He headed the school until he retired in 1947 and went to farming.

One of Sparks' most vivid memories of West Texas is of the school's one building burning.

"I was in it when it caught fire," he declared. "I was in Prof Morelock's class."

Conner home.

The third marker has been erected at the old L. T. Lester home built in 1904.

Dr. Ples Harper, head of the West Texas State University modern languages department, will dedicate the marker at the home which served as the site of many political, social and church gatherings.

Lester was a buffalo hunter and cattleman who settled in Canyon in 1889. He was also Canyon's first banker in 1900.

Lester helped bring WTSU to Canyon in 1910.

A son, of the late L. T. Lester, R. L. Lester of San Antonio, paid \$70 on the marker with the remainder being paid for by the county. He will also be here Sunday.

The home is located at 310 Eighth Street and has been the residence of the John Davis family since 1936.

Mrs. Terry C. Martin, head of the survey group, will introduce the dedication speakers.

A dinner at the Trail Motel Restaurant will follow the ceremonies.

Steve Hilton and Mary Starnes, Canyon High School students, will sing.

Fish Rodeo Set June 3

Fish rodeo for Canyon youngsters will be held June 3 under the sponsorship of the Canyon Jaycees.

The annual fish rodeo will be held at the Tony Burrus place on Palo Duro Creek, two miles north of the West Texas State University maintenance building. Signs will lead the way to the site.

Fishing will begin at 10 a.m. with awards to be presented in three age divisions including 3-6, 7-10 and 11-14. Awards will be given in each age division for the largest fish and the largest string of fish. Awards will be given at 4 p.m., according to Jackie Whitley, chairman.

Jaycees will furnish all of the bait, but youngsters should plan to bring their own poles, lines and hooks. Jaycees and Jaycee-Ettes will supervise the fishing, however, parents are urged to remain for the rodeo and assist with their children. A concession stand will be operated by the Jaycee-Ettes.

Youngsters needing transportation or additional information may contact the chairman, OL5-3915 or OL5-8897.

violin and flute, respectively. Rev. Charles Meredith, pastor of the First Christian Church, will give the invocation and benediction. The musical prelude, processional and recessional will be given at the organ by Mrs. Lee Foster.

Due to a shortage of seating space, admission will be by guest ticket only, according to McDonald. Ushers will be members of the Canyon High School faculty.

Following the commencement exercises, parents and friends of graduates will be entertained with a reception in the high school cafeteria and commons area. Decorating for the reception and commencement will be done by members of the junior class.

Graduates will then adjourn to the game room of the Student Union Building at West Texas State University for an all-night graduation party and prom which is being sponsored by the senior parents.

The graduation party will be concluded with a breakfast served by women of the First Presbyterian Church. The breakfast will be served in the cafeteria at Canyon High School.

Memorial . . .

(Continued from Page 1)

United States flag will be flown on the streets of Canyon due to the efforts of the Canyon Jaycees. Jaycee president, Delbert Turk, said that Memorial Day marks the first time for the flags to be put out on the new contracts for 1967-68.

Most Canyon businesses will be closed on Tuesday in observance of the national holiday. Both City Hall and the offices of the Randall County courthouse will be closed, as will the Canyon Post Office.

Large crowds are expected to visit Palo Duro Canyon State Park, Buffalo Lake and Wildlife Refuge and the Panhandle Plains Historical Museum during the holiday.

pairing the present building has been submitted.

Board President Wesley Cox questioned whether this is the right time to attempt a bond issue.

"I don't think anyone wants to remodel the old building," said Cox. "Whether this is the right time for a bond issue, because of the economy, is an open question."

"Even if we don't remodel or build we'll have to do something to repair the old building," the board president went on. Cox said the heating and plumbing in the old building are all right. "It won't take too much paint to keep it useable," he said.

"I think it's a matter of a new building or we will keep the same building we have for another year or two," Cox stated.

He noted that school tax on irrigated land in many cases doubled last year and that there was a 50 percent school tax increase on dryland.

"I figure most farmers would vote against a bond issue," said Cox. "That's what I've found from talking to them."

Three visitors spoke at the Tuesday night meeting.

Lester Smith said the school needs a preventive maintenance program. Cox said two men on the school pay roll are charged with maintenance and keeping of the school grounds.

John Albers told the board he was chagrined to learn that not a single door at the old junior high school building is equipped with an escape bar.

Superintendent Huelyn Laycock said the building was constructed without escape bars on the doors. Doors of the newest annex to the building have escape bars.

Albers said the Canyon fire marshal is remiss in his job for not demanding that escape bars be installed at the junior high school building.

Laycock said some school plant doors equipped with crash bars have been chained at night. Fletcher Sims said exit devices should never be locked.

"We have chained some doors in key places at night," Laycock replied. Laycock also said there is no exit on the stage end of the auditorium at Canyon Junior High School.

Lawrence Brotherton, who was junior high school principal for 12 years, said he believes the junior high school is operated safely.

"Your kids have been taken care of in safety and will continue to be," Brotherton declared.

Band Classes For Beginners

Summer band classes for students beginning the junior high school band program next fall will be conducted June 5-16, according to Gary Zook, band director.

The classes are designed primarily for students entering the junior high program for the first time next fall, however, other junior high students who are not advanced far enough for other summer band camps may participate.

Tuition for the ten-day school will be \$10 per student or \$15 for two students from the same immediate family.

Classes are tentatively scheduled for the woodwind and brass section at 8:30 a.m.; the rhythm pattern study and percussion class at 9:30; and a full band rehearsal for the beginner's class at 10:30.

In other business, the court gave Ray Geophysical, Inc., permission to make seismographs on 3 1/2 miles of county road right of way southeast of Canyon in Precinct 3.

A vibrating method will be used rather than explosive such as have been used in the past for seismograph operations. Ernest Wortham, an employee of the seismograph firm, said trucks equipped with vibrators will carry out the task.

Wortham said Ray Geophysical has been retained by Shell Oil Company to make the tests.

Verbal permission for the seismographing was granted with the stipulation that permission be obtained from adjacent land owners. Property owners will be paid at a rate of \$50 a mile, Wortham said.

The court voted to pay Elton Cox, Canyon attorney, \$25 for acting as attorney for a 16-year-old juvenile here last week. Judge Lloyd King said he appointed an attorney for the juvenile in order to comply with a recent Supreme Court ruling.

Until now, it has not been necessary to appoint a lawyer for a juvenile, Judge King explained. He said there was no law on the books enabling the judge to pay an attorney for such services without permission from commissioners court.

The court accepted bids on 32,000 tax receipts and 25,000 voter registration forms for the county tax office. Elliott Office Supply of Amarillo was low bidder on the tax receipts with a bid of \$825.56 and George Autry Printing, Amarillo, was low with a bid of \$177.06 on the voter registration forms. There were six bids on the voter registration forms and seven bids on the tax receipts.

Commissioners authorized the advertising for bids for sale, to be moved, of an old county barn belonging to Precinct 1. The barn is located just west of the Canyon senior high school building.

The court looked over plans for construction of a new county barn for Precincts 3 and 4. The building will be located in the vicinity of the Randall County Junior Livestock Building. No action was taken.

Commissioners voted to give some old law books to the West Texas State University student court. Commissioners also propose to give a set of old books to Panhandle-Plains Museum.

Justice of the Peace Bill Wilson, in charge of courthouse maintenance, told the court that some repair work and painting is badly needed at the courthouse annex in South Amarillo.

The court learned that the state will pay an additional \$235 on right of way for Loop 335 as soon as a lien release is obtained on the property involved.

bill is fated to die in the Senate.

Knapp was quoted as saying that Sen. J. P. Word of Meridian and a small group of senators have agreed they will not let the bill out of committee "unless it left their own judicial districts untouched."

Word is chairman of the Senate Committee on Legislative, Congressional and Judicial Districts. It is believed that in his position Word would be able to bottle up the bill.

Knapp said, "the majority of senators, including Sen. Grady Hazlewood of Canyon, indicated to me that they would approve HB 1043 as it was reported out of the judicial districts committee in the House."

"The majority of district judges and House members from the Panhandle-Plains area have supported the bill," he was quoted as having said.

Presently the 108th District Court has civil jurisdiction only in Potter County. The 47th District Court has both civil and criminal jurisdiction in both Potter and Randall Counties as well as in Armstrong County. This will remain unchanged.

Amarillo Bar Association is on record as having wanted a third district court in Amarillo with all three courts having dual jurisdiction in Potter and Randall Counties.

Canyon attorneys have been in favor of a separate district court for Randall County only.

1 egg

6 1/2 to 7 cups flour
Mix all ingredients together except flour. Add three cups flour and mix well. Continue adding flour and working dough until it will form a smooth ball. Place in greased bowl and refrigerate. Make rolls out about two hours before serving and allow to rise.

Large rolls may be accented with sesame seeds for additional flavor. Bake in 400 degree oven for 20-25 minutes.

HOT MACARONI SALAD
1 (7 oz.) pkg. shell macaroni
6 slices bacon
2 Tbsp. vinegar
1 Tbsp. onion, chopped fine
1/2 tsp. salt
1/4 tsp. pepper
1/2 tsp. mustard
1/3 cup salad dressing
1/2 cup radishes, sliced
1/4 cup green pepper, chopped
1/4 cup celery, chopped
1/4 cup parsley, chopped

Cook macaroni according to directions and drain. Fry bacon until crisp. Remove bacon and drain. Pour off all but two tablespoons of the fat in skillet and add onion and seasonings. Heat to boiling. Add drained macaroni and chopped vegetables. Toss together. Add crumbled bacon and toss.

Keep salad over low heat until ready to serve. Don't prepare too far in advance as vegetables will wilt if kept hot too long.

Superintendent Study By Stoker

The life and times of the average school superintendent in Texas will be reflected in a study to be published in June by Dr. W. M. (Fred) Stoker, head of the department of educational administration at West Texas State University.

"A Study of the Public School Superintendency in Texas," was sponsored by the Texas Association of School Administrators, Dr. Stoker said. It is based on 800 questionnaires returned from 1030 requests.

Dr. Stoker said that the "composite superintendent" is 47 years of age, and has been a superintendent for nine years. He had been in his present position for four and a half years.

"Before becoming a superintendent, he was a high school principal, and before that he was a social studies teacher or coach," Dr. Stoker said. "He has a master's degree, most likely from East Texas State University, and has done an additional year of graduate work. On the undergraduate level, he majored in social sciences and had a B average."

The increasing number of reports for local, state, and federal agencies is listed as the superintendent's "biggest headache," Dr. Stoker said. The superintendent works 54 hours a week, and takes only ten days vacation annually.

"The superintendent is paid \$12,000 annually, but believes the position merits \$14,000. Best part of his job is the feeling he is being of service to the children of the community."
